

# ICA workshop

## Introduction of MDM.056

**Peter Corbeel, EASA Rulemaking  
Chairman of MDM.056 group**

# Background

---

- Various implementation problems were identified related to ICA
- E.g.
  - ★ Product Certification internal review concluded that rulemaking is needed
  - ★ Legal proceedings regarding availability of ICA
  - ★ Etc.
- Decision to initiate rulemaking to address all issues late 2008

# Background

---

- Draft Terms of Reference (TOR) circulated to AGNA/SSCC
- TOR published 28-09-09
- TOR very broad and needs to be precise -> workshop
- Drafting group was set up; membership can be amended based on discussions
- Kick off meeting 08-12-09

# MDM.056 Scope

---

- Rulemaking can affect:
  - ★ All Certification Specifications (CS)
  - ★ Regulation 1702/2003 (Part-21) dealing with design and production
  - ★ Regulation 2042/2003 (Part-M, -145...) dealing with maintenance
  - ★ And all associated AMC/GM
- All categories of products are included: also GA

# MDM.056 drafting group

---

- EASA (7)
- ASD (2); European Manufacturers
- Brazilian Industry
- AEA; Operator/MRO
- GAMA; general aviation manufacturers
- AIA; US manufacturer
- NAA
- FAA
- TCCA

# MDM.056 objectives

---

- Clarification, not reinvent the wheel
- Align as much as possible to existing practice
- Harmonisation with FAA and TCCA is important

# MDM.056 planning

---

- Start: 3Q 2009
- NPA: 1Q 2011
- CRD: 4Q 2011
- Decisions / Opinions: 1Q 2012
  
- Further workshop(s)
  - ★ When first ideas for rule changes are developed
  - ★ Share information and solicit feedback

# Workshop objectives

---

- All TOR items to be discussed at workshop
- Are we tackling the right issues?
- Have we identified all relevant questions?
- Are there other issues we should include?
- Gather preliminary views to take into account during rulemaking work

---

**Thank you for your  
attention**

**Have a good workshop!**
