ARSA regulatory compliance training—Questions
Part 1: General Comprehension Level 1: For anyone working in aviation

§ 145.107 Satellite repair stations.

(a) A certificated repair station under the managerial control of another certificated repair station may operate as a satellite repair station with its own certificate issued by the FAA. A satellite repair station—

(1) May not hold a rating not held by the certificated repair station with managerial control;
(2) Must meet the requirements for each rating it holds;
(3) Must submit a repair station manual acceptable to the FAA as required by §145.207; and
(4) Must submit a quality control manual acceptable to the FAA as required by §145.211(c).

(b) Unless the FAA indicates otherwise, personnel and equipment from the certificated repair station with managerial control and from each of the satellite repair stations may be shared. However, inspection personnel must be designated for each satellite repair station and available at the satellite repair station any time a determination of airworthiness or return to service is made. In other circumstances, inspection personnel may be away from the premises but must be available by telephone, radio, or other electronic means.

(c) A satellite repair station may not be located in a country other than the domicile country of the certificated repair station with managerial control.

**Question 1:** A satellite repair station may hold any rating from the FAA.

A—True.  
B—False.

**Question 2:** Satellite repair stations must have their own designated inspection personnel.

A—True.  
B—False.

**Question 3:** A satellite repair station may be located in any country.

A—True.  
B—False.

**Question 4:** Personnel and equipment may be shared between managerial and satellite repair stations.

A—True.  
B—False.
§ 145.107 Satellite repair stations.

(a) A certificated repair station under the managerial control of another certificated repair station may operate as a satellite repair station with its own certificate issued by the FAA. A satellite repair station—

(1) May not hold a rating not held by the certificated repair station with managerial control;
(2) Must meet the requirements for each rating it holds;
(3) Must submit a repair station manual acceptable to the FAA as required by §145.207; and
(4) Must submit a quality control manual acceptable to the FAA as required by §145.211(c).

(b) Unless the FAA indicates otherwise, personnel and equipment from the certificated repair station with managerial control and from each of the satellite repair stations may be shared. However, inspection personnel must be designated for each satellite repair station and available at the satellite repair station any time a determination of airworthiness or return to service is made. In other circumstances, inspection personnel may be away from the premises but must be available by telephone, radio, or other electronic means.

(c) A satellite repair station may not be located in a country other than the domicile country of the certificated repair station with managerial control.

**Question 1:** A satellite repair station may hold any rating from the FAA.

A—True.

B—False. (A satellite repair station may only hold a rating held by the certificated repair station with managerial control.)

**Question 2:** Satellite repair stations must have their own designated inspection personnel.

A—True. (Inspection personnel must be designated for each satellite repair station and available any time a determination of airworthiness or return to service is made.)

B—False.

**Question 3:** A satellite repair station may be located in any country.

A—True.

B—False. (A satellite repair station must be located in the domicile country of the repair station with managerial control.)

**Question 4:** Personnel and equipment may be shared between managerial and satellite repair stations.

A—True. (Unless the FAA indicates otherwise, personnel and equipment may be shared.)

B—False.
