ARSA Regulatory Compliance Training—Questions

Part 65: CERTIFICATION: AIRMEN OTHER THAN FLIGHT CREWMEMBERS

Subpart D: Mechanics Level 1: For anyone working in aviation

§§ <u>65.75</u> & <u>65.79</u>

Knowledge & skill requirements.

§ <u>65.75</u> – Knowledge requirements.

- (a) Each applicant for a mechanic certificate or rating must, after meeting the applicable experience requirements of § <u>65.77</u>, pass a written test covering the construction and maintenance of aircraft appropriate to the rating he seeks, the regulations in this subpart, and the applicable provisions of parts <u>43</u> and <u>91</u> of this chapter. The basic principles covering the installation and maintenance of propellers are included in the powerplant test.
- (b) The applicant must pass each section of the test before applying for the oral and practical tests prescribed by § <u>65.79</u>. A report of the written test is sent to the applicant.

§ 65.79 – Skill requirements.

Each applicant for a mechanic certificate or rating must pass an oral and a practical test on the rating he seeks. The tests cover the applicant's basic skill in performing practical projects on the subjects covered by the written test for that rating. An applicant for a powerplant rating must show his ability to make satisfactory minor repairs to, and minor alterations of, propellers.

<u>Question 1</u>: An applicant for a mechanic certificate or rating must pass a written test focused on the technical aspects of aircraft construction and maintenance. <u>Question 2</u>: An applicant for a mechanic certificate or rating must meet the experience requirements of $\S 65.77$ before attempting to pass the required written test.

- A: True.
- B: False.

Question 3: An applicant for a mechanic certificate or rating must meet the experience requirements of § <u>65.77</u> before attempting to pass the required oral and practical tests.

- A: True.
- B: False.

A: True.

B: False.

<u>Question 4</u>: Applicants for an airframe rating must show ability to make satisfactory minor repairs to, and minor alterations of, propellers.

- A: True.
- B: False.

Identification		Date	
	Clearly Print the Name and/or Identification of the Person Taking the Test	- -	Date Test was Completed
Score		Hours	
	Enter as x (number correct) of y (number of questions)	-	Time Credited for Test
Approved by			
-	Signature of Supervisor or Person Administering Test	-	

ARSA Regulatory Compliance Training—Answers

Part 65: CERTIFICATION: AIRMEN OTHER THAN FLIGHT CREWMEMBERS

Subpart D: Mechanics Level 1: For anyone working in aviation

§§ <u>65.75</u> & <u>65.79</u>

Knowledge & skill requirements.

§ <u>65.75</u> – Knowledge requirements.

- (a) Each applicant for a mechanic certificate or rating must, after meeting the applicable experience requirements of § <u>65.77</u>, pass a written test covering the construction and maintenance of aircraft appropriate to the rating he seeks, the regulations in this subpart, and the applicable provisions of parts <u>43</u> and <u>91</u> of this chapter. The basic principles covering the installation and maintenance of propellers are included in the powerplant test.
- (b) The applicant must pass each section of the test before applying for the oral and practical tests prescribed by § <u>65.79</u>. A report of the written test is sent to the applicant.

§ 65.79 – Skill requirements.

Each applicant for a mechanic certificate or rating must pass an oral and a practical test on the rating he seeks. The tests cover the applicant's basic skill in performing practical projects on the subjects covered by the written test for that rating. An applicant for a powerplant rating must show his ability to make satisfactory minor repairs to, and minor alterations of, propellers.

<u>Question 1</u>: An applicant for a mechanic certificate or rating must pass a written test focused on the technical aspects of aircraft construction and maintenance.

- A: True.
- B: False. The written test described § <u>65.75(a)</u> includes the regulations <u>part 65 subpart D</u> in addition to parts <u>43</u> and <u>91</u>.

<u>Question 3</u>: An applicant for a mechanic certificate or rating must meet the experience requirements of § $\underline{65.77}$ before attempting to pass the required oral and practical tests.

- A: True. Though not explicitly stated in § <u>65.79</u>, § <u>65.75(b)</u> requires an applicant pass each section of the written test, which cannot be attempted until § <u>65.77</u> has been satisfied, to apply for oral and practical testing. However, there is an exception in § <u>65.80</u> for part <u>147</u> school students to attempt their oral and practical tests prior to receiving a graduation/completion certificate as required by § <u>65.77</u>.
- B: False.

<u>Question 2</u>: An applicant for a mechanic certificate or rating must meet the experience requirements of § $\underline{65.77}$ before attempting to pass the required written test.

- A: True.
- B: False.

<u>Question 4</u>: Applicants for an airframe rating must show ability to make satisfactory minor repairs to, and minor alterations of, propellers.

A: True.

B: False. § <u>65.79</u> states that an applicant for a powerplant rating must show practical ability with regard to propellers.
