

ARSA regulatory compliance training—Questions

Part 1: General Comprehension

Level 1: For anyone working in aviation

§ 145.55 Duration and renewal of certificate.

- (a) A certificate or rating issued to a repair station located in the United States is effective from the date of issue until the repair station surrenders it or the FAA suspends or revokes it.
- (b) A certificate or rating issued to a repair station located outside the United States is effective from the date of issue until the last day of the 12th month after the date of issue unless the repair station surrenders the certificate or the FAA suspends or revokes it. The FAA may renew the certificate or rating for 24 months if the repair station has operated in compliance with the applicable requirements of part 145 within the preceding certificate duration period.
- (c) A certificated repair station located outside the United States that applies for a renewal of its repair station certificate must—
- (1) Submit its request for renewal no later than 30 days before the repair station's current certificate expires. If a request for renewal is not made within this period, the repair station must follow the application procedures in § 145.51.
 - (2) Send its request for renewal to the FAA office that has jurisdiction over the certificated repair station.
- (d) The holder of an expired, surrendered, suspended, or revoked certificate must return it to the FAA.

Question 1: A repair station located in the United States must regularly renew its certificate or rating.

- A—True.
- B—False.

Question 2: A repair station located outside the United States must regularly renew its certificate or rating.

- A—True.
- B—False.

Question 3: A certificated repair station located outside the United States may request renewal from any FAA office as long as it is no later than 30 days before the repair station's current certificate expires.

- A—True.
- B—False.

Question 4: There is a proper procedure for disposing of an expired, surrendered, suspended, or revoked certificate.

- A—True.
- B—False.

ARSA Regulatory Compliance Training—Answers

§ 145.55 Duration and renewal of certificate.

(a) A certificate or rating issued to a repair station located in the United States is effective from the date of issue until the repair station surrenders it or the FAA suspends or revokes it.

(b) A certificate or rating issued to a repair station located outside the United States is effective from the date of issue until the last day of the 12th month after the date of issue unless the repair station surrenders the certificate or the FAA suspends or revokes it. The FAA may renew the certificate or rating for 24 months if the repair station has operated in compliance with the applicable requirements of part 145 within the preceding certificate duration period.

(c) A certificated repair station located outside the United States that applies for a renewal of its repair station certificate must—

(1) Submit its request for renewal no later than 30 days before the repair station's current certificate expires. If a request for renewal is not made within this period, the repair station must follow the application procedures in § 145.51.

(2) Send its request for renewal to the FAA office that has jurisdiction over the certificated repair station.

(d) The holder of an expired, surrendered, suspended, or revoked certificate must return it to the FAA.

Question 1: A repair station located in the United States must regularly renew its certificate or rating.

A—True.

B—False. (A certificate or rating issued to a repair station located in the U.S. is effective until the repair station surrenders it or the FAA suspends or revokes it)

Question 3: A certificated repair station located outside the United States may request renewal from any FAA office as long as it is no later than 30 days before the repair station's current certificate expires.

A—True.

B—False. (The certificated repair station located outside the U.S. must send its request to the FAA office that has jurisdiction over that repair station)

Question 2: A repair station located outside the United States must regularly renew its certificate or rating.

A—True. (A repair station located outside the U.S. must follow the timeline prescribed in § 145.55(b) to regularly renew its certificate)

B—False.

Question 4: There is a proper procedure for disposing of an expired, surrendered, suspended, or revoked certificate.

A—True. (The certificate must be returned to the FAA)

B—False.
