RE: Part 145 Working Group Preliminary Recommendation Report

Dear Mr. Roberts,

On December 10, 2020, the Aviation Rulemaking Advisory Committee (“ARAC”) voted unanimously to accept the Part 145 Working Group’s (“Part 145 WG”) Preliminary Recommendation Report (“Report”). As directed in the ARAC tasking, the Part 145 WG developed this Report and provided recommendations based on its analysis and findings. This Report was also submitted timely, as provided in the tasking, no later than 24 months from the first meeting of the Part 145 Working Group.

On behalf of the ARAC members, please accept the Part 145 WG’s Report and submit to the relevant program offices for consideration. ARAC would also like to extend its appreciation to the Part 145 WG Co-Chairs and its members for its efforts to complete the Report timely especially given the challenges of meeting and coordinating the finalization of the Report virtually.

Please do not hesitate to contact me with any questions. Thank you very much.

Sincerely yours,

Yvette A. Rose
