ARSA IN THE NEWS

Quality by Any Other Name

The evolution of quality and safety management systems obscures an important point: Failing to meet the quality standard of the rules is non-compliance – period.

QUICK QUESTION

Quick Question – 2023 Conference Planning

The repair station community's premier substantive event returns; help ARSA's team plan for the 2023 Annual Conference.

INDUSTRY NEWS

How an Industry Built on Pollution Is Getting a Tiny Bit Greener

Commercial aviation says it's looking to lop off emissions where it can – from the routes aircraft take to the time they spend circling airports, sitting on the tarmac or idling at the gate.

Balloon Federation of America Responds to FAA Medical Ruling

On Nov. 16, the FAA adopted a final rule requiring commercial hot-air balloon pilots to hold at least a second-class medical certificate when flying paying passengers or otherwise operating for hire.

Delta, Aero Design Labs Testing Novel Tech to Further Decrease Aircraft Emissions

Delta is taking another step toward its goal of net-zero emissions by 2050 as it tests novel drag-reduction technology by Aero Design Labs on its 737-800 and 737-900 fleets.

FAA to Add Powered-lift Aircraft to Air Carrier Category

On Nov. 21, the agency issued a notice of proposed rulemaking allowing it to determine on what terms powered-lift aircraft that can't be categorized as airplanes or rotorcraft could be regulated for air carrier operations, including scheduled airline services and on-demand charter.

Spotted: Airbus Beluga Performs Maiden Flight to Mumbai Airport

The Airbus Beluga, one of the world's largest freighter aircraft, touched down at Chhatrapati Shivaji Maharaj International Airport in Mumbai, marking the giant's first appearance at the Mumbai airport.

LATAM, Delta Announce Non-Stop Service Between São Paulo and LAX as Joint Venture's 1st New Market

LATAM will be the only airline operating a nonstop flight between Brazil and Los Angeles, where customers will have connections to the Delta hub's most popular destinations on the West Coast of the United States, including San Francisco, Las Vegas and Seattle.

Court Throws Out 737 Max Passenger Lawsuit Against Boeing, Southwest Airlines

A federal appeals court has rejected a class-action lawsuit against Boeing and Southwest Airlines that accused the companies of putting 737 MAX passengers in harm's way and covering up known dangers to the flying public.

Sky Harbour Opens Second Private Hangar Complex

Rapidly-expanding private hangar developer/operator Sky Harbour has opened its complex at Nashville International Airport.

[Taking Aviation by Storm](#)

Serving as the hub that brings six brands together, Tempest Aero Group offers sales and marketing support to our affiliate companies – Tempest®, Alcor®, Marvel-Schebler®, Precision Airmotive®, Consolidated Fuel Systems™ and Stratus Tool Technologies™ – all who serve as independent companies and brands with manufacturing facilities in Burlington, NC, San Antonio, TX and Arlington, WA.

[EasyJet and Rolls-Royce Test Hydrogen Propulsion System](#)

A series of ground tests conducted during November with the concept demonstrator at the UK's Boscombe Down defense research facility has prepared the way for full-scale ground tests using the Pearl 15 turbofan engine that Rolls-Royce developed for Bombardier's Global 5500 and 6500 business jets.

[Lufthansa Selects Rival for APU Work](#)

It's not often that Lufthansa entrusts maintenance to a big rival in the MRO world, but sometime capabilities determine where work must go.

[ST Engineering Aerospace Unit Says No Full Recovery Yet, Despite Steady Revenue Rise](#)

ST Engineering's commercial aerospace unit has acknowledged that it has yet to fully recover to pre-pandemic levels, despite reporting a steady increase in revenue this year.

[The Crews of the CAF P-63 and B-17 Are Eligible to Receive Support from the ICAS Foundation](#)

The recent tragedy that occurred at the Wings Over Dallas Airshow is receiving the generous attention and aid of the International Council of Air Shows.

[Avia Solutions Group Holds its First Group-Wide Aviation Safety Forum, Encouraging Cooperation](#)

Aviation safety managers of the group companies shared the best practices of the aviation safety performance monitoring systems, and the latest and most

important aviation safety issues and discussed the lessons learned in aviation safety.

Product Showcase

[Chromalloy LifeX® Parts & Repairs](#)

Our innovative LifeX repairs and solutions increase the yield of critical engine parts, so you have fewer parts to replace and realize savings on each shop visit. If a replacement is required, our FAA certified and industry proven LifeX parts provide further operational and economic value. With 70 years of experience, Chromalloy has the engineering expertise to deliver solutions that make a measurable difference for our customers.
